

Thanks for Keeping Your Bucks in Jackson Hole!

Patronizing local businesses helps to keep your local bucks recycling through the Valley, supporting the Jackson Hole economy and each person who lives, works, plays and stays here. We pride ourselves in being a community first and a resort second; local businesses are a key piece of that puzzle.

Top 5 Reasons to Buy Local:

1. **You are staying healthy.** When you buy from local businesses you are contributing to the sales tax base our local government can use towards maintaining our trail system, reducing your environmental impact by not driving to shop in other towns, and helping to reduce pollution, sprawl, congestion and habitat loss.
2. **You are helping sustain local nonprofits and community organizations.** The local government financially helps to support these organizations through the use of sales tax dollars; local businesses are more likely to contribute to our schools, nonprofits, local events and civic projects. Your money spent here in Jackson Hole helps to make all this possible.
3. **You are supporting the START bus.** Jackson Hole's mass transit system depends on your dollars spent in the Valley. Mass transit helps cut down on pollution, transportation-related animal deaths, congestion and more.
4. **You are helping your neighbors.** By patronizing local businesses you are helping sustain your friends' and neighbors' jobs. And as a bonus, you are very likely to receive better service from a local expert here in the Valley.
5. **You are investing in our future.** Local businesses are owned and operated by people who live in this community, are less likely to leave, and are more invested in the community's future.
